Summary

Software developer with experience in full-stack development using Java, Spring Boot, Hibernate, React, and database tools. I focus on writing clean, efficient code to build scalable and user-friendly applications

EDUCATION

Center for Development of Advanced Computing (CDAC)

Feb – Aug 2025

Post Graduate Diploma in Advanced Computing – 74%

ACTS-Pune

Fergusson College (Autonomous), Pune

2022 – 2024

Master of Science in Computer Applications – CGPA: 7.40

Pune

Pemraj Sarda College, Ahilyanagar

2019 – 2022

Bachelor of Science in Computer Science – CGPA: 8.09

Ahilyanagar

Work Experience

Tangle Design - Web Developer (Intern)

Jan 2024 - April 2024

As an intern web developer, I gained hands-on experience working with platforms such as Webflow and WordPress to create visually appealing and functional websites. I contributed to both front-end and back-end development, working on layout customization, content management, and performance optimization.

PROJECTS

SuperKart | Java, Spring Boot, Hibernate, MySQL, React

- Developed a full-stack e-commerce platform with features for browsing, adding to cart, and purchasing products.
- Implemented product management for administrators to add, edit, and delete products.
- Designed and developed RESTful APIs for secure authentication, order processing, and payment integration using JWT.
- Used Hibernate and MySQL to manage data efficiently and optimize queries.
- Built a dynamic front end using React to enhance user experience and navigation.
- Followed best practices to ensure clean architecture, scalability, and maintainability.

Hotel Booking Application | Java, Spring Boot, Hibernate, MySQL, React

- Created a hotel reservation application allowing users to register via OAuth2, log in, book, change, or cancel bookings, and view history.
- Developed secure REST APIs for authentication, booking logic, hotel and room management, and payment processing.
- Implemented email notifications for confirmations, cancellations, and payment receipts to keep users informed.
- Used Hibernate + MySQL to manage users, hotels, rooms, and bookings; optimized database structure and queries for performance.
- Structured the backend in controller, service, repository layers; used DTOs, validation, and strong error handling.

TECHNICAL SKILLS

Languages:Java, C, C++, SQL, C#

Technologies / Frameworks:Spring Boot, Hibernate, .NET, Bootstrap

CMS:WordPress, Webflow

Databases:MySQL, MongoDB

Tools:Git, GitHub

Strengths:Problem-Solving, Communication
